Fynl.io portal tour: one login for every tool

Fynl.io puts leads, messages, calendar, quotes, invoices, your website, social posts, email, automations and AI agents behind one login, in one grouped sidebar.

WHAT THIS ADDS

How many tabs does it take to run your business? In Fynl.io it is one login and one sidebar, with every tool in a group.

One login, one sidebar

Fynl.io is **one login**: leads, messages, calendar, quotes, invoices, your website, social posts, email, automations and AI agents. They all sit in **one sidebar, in groups**.

Press slash and type

Press **/**, type what you want, like **invoice**, and you are there.

A video on every screen

Every screen has a **Tutorials** button with a short video for that exact screen. New here? Start with the **sixteen Getting started videos**.

DO THIS

Press slash, type what you want (like invoice) and you are there. Every screen has a Tutorials button with a short video for that exact screen, and the sixteen Getting started videos take you through it in order.

What Fynl.io is

One portal a small business runs itself on, instead of five subscriptions that do not talk to each other.

- A CRM and pipeline that shows every lead and where it stopped
- A calendar clients can book straight into
- Quotes, contracts and invoices, with deposits taken up front
- A website and form builder, so the enquiry lands in the same place
- Your Gmail connected, so the whole thread sits on the contact

- Automations for the follow-up you keep forgetting to send

The AI runs on **your own Claude or ChatGPT API key** — no markup on it. No SMS or phone calls yet. $49/month per business, $149 Agency, and we move your contacts over for you.

Everything lives behind one Fynl.io login, so you stop switching between separate apps for leads, invoices, your site and your social posts.
