

FREE GUIDE

Fynl.io Social Planner: a month of posts, approved by you

Stop opening Instagram every day. Put every account on one calendar, draft weeks at a time and approve them in one sitting.

WHAT THIS ADDS

Posting every day eats time and usually gets forgotten. In Fynl.io, Social Planner puts every account on one calendar: write a post yourself, or press Fill my calendar and the AI drafts weeks at a time. Nothing goes out until you approve it.

Every account on one calendar

Social Planner puts every social account on **one calendar**, so each day shows which post is scheduled for which account.

Write it yourself or press Fill my calendar

Write a post yourself, or press **Fill my calendar** and the AI drafts **weeks at a time**.

Nothing goes out until you approve it

Drafts wait as **amber cards**. You read them, change what you want and **approve**. Nothing posts without your yes.

Autopilot: one line about your business

Autopilot goes further: type **one line** about your business and every day it **writes** the post, **illustrates** it and **schedules** it.

Brand board: one voice everywhere

The **Brand board** holds your voice, **colors** and **logo**, so every post it makes, on every account, looks like your brand.

DO THIS

Open Social Planner, press Fill my calendar, read the amber drafts and approve them.

What Fynl.io is

One portal a small business runs itself on, instead of five subscriptions that do not talk to each other.

- A CRM and pipeline that shows every lead and where it stopped
- A calendar clients can book straight into
- Quotes, contracts and invoices, with deposits taken up front
- A website and form builder, so the enquiry lands in the same place
- Your Gmail connected, so the whole thread sits on the contact
- Automations for the follow-up you keep forgetting to send

The AI runs on **your own Claude or ChatGPT API key** — no markup on it. No SMS or phone calls yet. \$49/month per business, \$149 Agency, and we move your contacts over for you.

Social Planner lives in the same Fynl.io portal as Leads, Messages and the rest, and the Brand board keeps your voice, colors and logo the same everywhere.
