

Fynl.io Websites: describe the business, get the site

Need a website without losing a month to it? Type one or two sentences about the business and press Build it.

WHAT THIS ADDS

Building a website usually eats weeks. In Fynl.io, Websites builds a website, a funnel or a one-page landing page from one or two sentences about your business; about half a minute later it is in your list with its own visits and leads.

Pick the kind of site

In **Websites**, pick a **website**, a **funnel** or a **one-page landing page**.

Type one or two sentences

Say **what the business does** and **what you want visitors to do**.

Press Build it

Press **Build it**. About **half a minute** later the site is in your list, with its own **visits** and **leads**.

Or start from a template

Start from a **template** with your business name already in it. Every form on the site sends people straight to **Leads**.

DO THIS

Open Websites, pick the kind of site, type one or two sentences and press Build it.

What Fynl.io is

One portal a small business runs itself on, instead of five subscriptions that do not talk to each other.

- A CRM and pipeline that shows every lead and where it stopped
- A calendar clients can book straight into

- Quotes, contracts and invoices, with deposits taken up front
- A website and form builder, so the enquiry lands in the same place
- Your Gmail connected, so the whole thread sits on the contact
- Automations for the follow-up you keep forgetting to send

The AI runs on **your own Claude or ChatGPT API key** — no markup on it. No SMS or phone calls yet. \$49/month per business, \$149 Agency, and we move your contacts over for you.

Websites lives in the same Fynl.io portal, so every form on the site sends people straight to your Leads.
